

TIBCO EDUCATION

AT A GLANCE

For over twenty years, TIBCO has provided software and services that help our customers achieve high performance integration – delivering the right information to the right place at the right time. TIBCO offers comprehensive, worldwide training to meet the needs of individuals and companies. Offerings include Learning Pathways, Boot Camps, Product Training, and Certification.

BENEFITS

• Proper Curriculum

Our courses provide relevant and engaging learning experiences for students to acquire the skills needed for success.

• Professional Instructors

Our experienced certified instructors have the teaching skills and techniques required to deliver effective hands-on training.

• Proven Results

We provide the right environment to quickly develop the knowledge needed to get the most out of your investment with TIBCO.

Maximize Your TIBCO Investment

The best way to maximize the benefits of your TIBCO investment is to become skilled in the applications and best practices for building world-class solutions using TIBCO products.

At TIBCO Education our mission is to provide you with relevant and engaging learning experiences to acquire the skills needed for success.

When you attend TIBCO training, you benefit from curriculum developed and delivered by the experts. We offer multiple delivery options and payment programs to make it convenient and easy to take the classes you need.

Training Delivery Options

Classroom: Skilled and certified instructors, extensive hands-on lab exercises, and state-of-the-art training centers create a powerful learning environment.

- **Technical Learning Centers:** TIBCO offers public, scheduled classes in Technical Learning Centers located around the world. The current list of TIBCO courses is available on our website, along with the schedules for all of our Centers. For the latest information, please go to: www.tibco.com/services/educational

• Private / Customer-Dedicated Training:

Your organization may find it more cost effective to have private classes taught at your location. This can minimize employee travel expenses and time away from the office, while giving staff the education needed to ensure smooth installation, development, and ongoing maintenance. To arrange on-site classes at your location, contact your regional registrar.

Live Online: Attend from the convenience of your office or home. Online classes feature all the benefits of live instructor interaction without requiring travel. All online classes include hands-on lab exercises – only internet and headset or phone access is required.

Self-Paced eLearning: Learn at your own pace – when and where you choose. All you need is a browser with internet access. Select from our wide range of modules for instant access to the information you need.

Courses and Registration

TRAINING AND CERTIFICATION

Learning Pathways provides training recommendations based on your job role and the TIBCO technologies you need to learn. Pathway programs are available for developers, administrators, business analysts, and architects. Each program includes classroom, live online, and self-paced eLearning options.

TIBCO Boot Camps deliver a quick start for your TIBCO implementation and provide an intensive immersion into TIBCO architecture and integration technologies. Attendees design and implement focused integration solutions to solve real business challenges.

TIBCO Product Training offers in-depth knowledge and understanding about specific products. We offer training for specific courses at varying difficulty levels. Through interactive lectures, discussions, and labs, participants quickly learn the skills needed to be productive with TIBCO products.

TIBCO Trained Professional Program recognizes individuals who have both attended training and passed the related Knowledge Assessment, an on-line test designed to verify knowledge of key concepts and capabilities covered. These online tests are helpful for candidates preparing for a TIBCO certification exam or as simple proof of basic ability acquired from a course.

TIBCO Certified Professional Program enables you to obtain official recognition for your knowledge of TIBCO technologies. You may obtain certification in the following areas: Architecting Composite Applications and Services with TIBCO, TIBCO ActiveMatrix BusinessWorks™, TIBCO Enterprise Message Service™, TIBCO Rendezvous®, TIBCO ActiveMatrix® BPM, and TIBCO Collaborative Information Manager™.

Payment Programs

Prepaid Training Account Program: Maximize your training budget with our Prepaid Training Account Program. Receive a volume discount when you prepay for training to be taken within a 12-month period. Prepaid training simplifies training procurement and registration. Discounts are applied and tracked with your account ID. It's easy to put prepaid training to work for you: give us a call and we'll recommend a strategy to meet your particular requirements.

eLearning Subscriptions: Gain access to eLearning courses through a one-time purchase with significant savings. We offer multiple options for individuals and mid-to-large sized organizations.

- **Individual Subscription Plan:** Choose the eLearning courses you need, or gain access to the entire library with the unlimited subscription. The individual subscription plan is for a single, named user.
- **Corporate Subscription Plan:** This plan provides unlimited access for a set number of users. You can select a subscription level to fit your specific needs. For more information, contact your regional registrar.

About TIBCO

TIBCO Software Inc. (NASDAQ: TIBX) is a provider of infrastructure software for companies to use on-premise or as part of cloud computing environments. Whether it's efficient claims or trade processing, cross-selling products based on real-time customer behavior, or averting a crisis before it happens, TIBCO provides companies the two-second advantage™ - the ability to capture the right information, at the right time and act on it preemptively for a competitive advantage. More than 4,000 customers worldwide rely on TIBCO to manage information, decisions, processes and applications in real-time. Learn more at www.tibco.com.
